

LA SANTA CASA DI LORETO Distrutta

Un incendio ha Prodotto Danni per Oltre Dodici Milioni di Lire

Published and Distributed Under PERMIT NO. 511. Authorized by the State of October 6, 1917, on file at the Postoffice at Philadelphia, Pa. A. S. BURLINSON, Postmaster General.

Roma, 24 febbraio.—Un incendio svoltosi nella mattina del 22 corrente nella storica Basilica di Loreto ha distrutto precisamente la Santa Casa dove, secondo la leggenda, abitò la Madonna e che fu trasportata dagli angeli dalla Palestina in Loreto. Papa Benedetto ha ricevuto un rapporto da Monsignor Andreoli, arcivescovo di Loreto, nel quale è dimostrato che le perdite preparabili per i tesori religiosi sono più calamitose di quanto fu in suite prime rapportate. Tali perdite si stimano superiori ai 12 milioni di lire.

Roma, 24 febbraio.—L'Italia non è affatto soddisfatta con certi termini dell'accordo relativo alle riparazioni da parte della Germania, come indica una nota mandata al Conte Sforza, Ministro degli Esteri, dal Comitato per gli affari Esteri e Finanza, nella quale l'On. Luzzatti, presidente del detto comitato, dice che l'opinione pubblica ed il Parlamento guardano con disfavore la parte del 10 per cento sulle indennità da pagarsi dalla Germania assegnata all'Italia. Tale assegnazione è considerata come una ingiustizia e si sostiene che la parte italiana dovrebbe essere non minore del 25 per cento. Si sostiene che in parte d'indennità l'Italia, ha avuto il 22 per cento. La nota dice che l'Inghilterra ha guadagnato anche nelle merci e nel cambio. Si sostiene che in parte d'indennità dovuta all'Italia dovrebbe subito seguire quella concessa alla Francia, la quale ricevette il 52 per cento, giacché la Francia soltanto, superò in perdite l'Italia. La nota considera assurdo il concedere una parte alla Serbia. Si allude anche ad una parte che l'Italia dovrebbe avere sulla proprietà privata nelle colonie tedesche. La nota spiega pure perché l'Italia si oppone alla tassa del 12 per cento da imporsi alla Germania sulle esportazioni, come si prevede con l'accordo di Parigi. Gli altri Alleati vogliono comperare alla Germania negli stessi prodotti e negli stessi mercati, e perciò sono interessati a dare un colpo alla esportazione tedesca. L'Italia, invece intende comperare i prodotti della Germania ed in conseguenza il 12 per cento di tassa, di cui sopra, verrebbe in realtà ad essere pagato dagli importatori italiani.
